

ST. LOUIS COUNTY AND MUNICIPAL POLICE ACADEMY

Firearms Instructor 60 Hour Program

The 60-Hour Firearms Instructor program will certify the participating officer to instruct pistol and shotgun training. The course will cover the basics of range management and safety, instruction of fundamentals of marksmanship, use of cover, low light training, dynamic course design, remedial training, training mandates and legal considerations, documentation, and training aid considerations. In order to be certified the officer must present a fifteen-minute lecture on an assigned topic, design and run a specified course of fire, pass a written test, and a weapon proficiency course. All training will be at the Beaumont Antire Range.

Please Note: To assist participating agencies with scheduling for the program and to ensure a full or reasonably full training class, the Weapon proficiency test will be conducted prior to the Firearms Instructor program. Participants wishing to attend the program will attempt to pass the Handgun qualification on a specified date prior to the course. The standard to pass is 85% on a 50 round course. (43/50) The target used will be the B-27E-SLC target. It is considered a Disqualification if rounds missed impact the white border areas around the silhouette or if rounds fired are off the target paper. All 50 rounds must be accounted for on paper. If the number of participants that pass is greater than the number allowed for the class, the top shooters will get a slot for the closest program and all others will be locked in for the next available program within the calendar year. The course of fire will be the current FBI pistol qualification which is attached with this announcement.

St. Louis County and Municipal Police Academy

Subject: MANDATORY QUALIFIATION

Those individuals that are attending the 60 Hour Firearms Instructor Course will be required to qualify on the designated day prior to the Firearms Instructor course. Each student is required to qualify with their duty pistol and achieve a score of 85% of the course fired. There will be no practice qualification.

The minimum standard is:

- Using a B-27E-SLC Target
- 85% (43 out of 50) scoring in the 8, 9, and 10 ring
- 100% round accountability on the shaded portion of the target (No rounds impacted on area outside silhouette/no rounds off paper)
 - All rounds must be fired in the time parameters
 - No thumb cocking of any double/single weapon, and all retention systems must be in place
 - Alibi rounds are only given for weapon malfunction not shooter error and will be shot under time.
